Wolf News

Come Fly With Me!

Have you ever been on a Holy Cow swing? Or climbed through a giant spider web? Or turned over a blanket with 10 people standing on it? Well the sixth grade class at The Wolf School did all of this and more when they headed out for a day of adventure at the [Harmony Hill Challenge Course](#) in Chepachet, RI.

Once there, students were guided through a series of adventure-based activities designed to improve self-esteem, communication, and team work. The challenges required a lot of problem solving and overcoming fears. Upon returning to the classroom, students were able to make connections to how they use skills like team work and problem solving during their school day. After all, once you've flown 45 feet up in the air with a little help from your friends, anything seems possible!

Lessons Learned

When the sixth grade students were asked what they learned

Quick Links

[The Wolf School Programs](#)
[Admissions](#)

from their Challenge Course experience, here's what they said:

- Teamwork makes a difference
- Communication is important
- Listening to plans helps you succeed in your goal
- Not everything revolves around you

Everyone also agreed they would recommend this experience for the next sixth grade class and they would do it again. Stay tuned for next year!

The Wolf School E-news hopes to keep you updated on our latest news, learnings and activities throughout the year.

Our Mission

The Wolf School is dedicated to providing an educational environment where children with learning differences become successful, secure learners. Our intensive and integrated model enables children to discover and utilize their strengths and talents by meeting their academic, social and emotional needs.
